GOVERNMENT OF PAKISTAN
TRADE DEVELOPMENT AUTHORITY OF PAKISTAN
(GSP SECTION)

File No. TDAP-2(33)/GSP-2012

Karachi, the 13th September, 2012

PUBLIC NOTICE

All exporters making shipments to Europe (E.U) are hereby advised to note following changes in the procedure for the issuance of GSP Certificates for the above destination:

- I. The GSP Certificate Forms should contain eight digits of harmonized code (HS) instead of four digits now used.
- II. In case of shipment destined for the EU involving two or more ports; separate GSP Certificates would need to be issued for quantities destined for such individual ports.
- III. In cases where exporters require the Certificates with 'retrospective effect', they will have to give the reasons thereof in writing (to the TDAP) for such Certificates.

The above changes will come into effect from 25.09.2012 and exporters to the EU should note them for necessary compliance.
