

CORPORATE SOCIAL RESPONSIBILITY AND LIABILITY FIRE RISK ASSESSMENT AND MITIGATION

SGS Pakistan would like to cordially invite you to the first, in a series of knowledge sharing workshops, on the importance of fire and electrical safety risk, its mitigation and contingency planning

SGS Pakistan being a socially responsible organization has played a great part in assisting trade bodies in formation and identification of basic risk factors and the preventive requirements and now we take a step ahead by launching a series of workshops for all industrial regions of Karachi in their respective Trade Association Offices, to educate and address need of knowledge sharing of industry against this mammoth risk of safety and share the pertinence of basic requirements as approved by all stakeholders in form of a checklist in ensuring safe and reliable work environment and continuity of operations
