Techtextil Frankfurt
09-12 May, 2017
Frankfurt am Main

Leading International Trade Fair for Technical Textiles and Nonwovens

Technical Textile is defined as textile material and products manufactured primarily for its technical performance and functional properties rather than aesthetic and decorative characteristics. It is a large and growing sector and supports a vast array of other industries. It is the leading international trade fair for technical textiles and nonwovens showing the full range of potential uses of textile technologies.

It takes place parallel to **Texprocess** the top international trade fair for the processing of textile and other flexible materials, manufacturers from all over the world will be presenting their leading technologies for the apparel industry and other textile processing segments.

Below companies are participating from Pakistan and Bangladesh Techtextil 2017:

itextiles, Huqas Corporation, Master Textile Mills and Sapphire Finishing Mills and Mahroz Textile Mills from Pakistan.

B. J Geo Textile Ltd is participating from Bangladesh.

Together, the two fairs Techtextil and Texprocess welcomed 1,666 exhibitors from 85 countries and almost 42,000 trade visitors from 196 nations.

1,393 exhibitors from 102 countries and almost 28,491 international guest came to Frankfurt for the Leading International trade Fair for processing Textile and Flexible Materials. Over 5,558 trade visitors came to Techtextil from the concurrent Texprocess.

Texprocess
9 - 12 May 2017
Frankfurt, Germany

Texprocess is the leading international trade fair for the international garment-manufacturing and textile processing industry.

Texprocess is the leading international trade fair for the processing of textile and flexible materials. Held every two years concurrently with Techtextil, it is the leading international trade fair for technical textiles and nonwovens and covers the complete product spectrum along the entire value chain.

Together, the two fairs Techtextil and Texprocess welcomed 1,666 exhibitors from 85 countries and almost 42,000 trade visitors from 196 nations.

Texprocess 2015 attracted 273 exhibitors and 1,393 exhibitors in Techtextil. Over 13,335 trade visitors from 94 countries, an increase of ten percent over the previous edition and 7,700 visitors from the concurrent Techtextil came to Texprocess to discover the world's biggest range of new software solutions, processes and technologies for the garment and leather technology sector. Texprocess is the fair for all machineries for processing textile and other flexible materials.

- Supported by VDMA Garment and Leather Technology Association.
- The fair covers all stages of the textile-processing chain with a comprehensive product spectrum stretching from design and cutting, via sewing, joining, embroidery and knitting, to finishing, textile printing, logistics and IT.
- Held along with Techtextil, the fair is the perfect platform for NEW and INNOVATIVE techniques and machines.
- Texprocess will be supported by SPESA (Sewn Products Equipment & Suppliers of the Americas), CSMA (China Sewing Machinery Association), JASMA (Japan Sewing Machinery Manufacturers Association), International Apparel Federation, Euratex (The European Apparel and Textile Confederation), GermanFashion - Modeverband Deutschland e.V, Dialog Textil-Bekleidung.
- Key players such as Epson and brother exhibited at Texprocess 2015 already.

In 2015, the top 10 exhibitor nations were: Germany, Italy, China, Great Britain, Taiwan, Turkey, Poland, Japan, USA, and Portugal.

Top 10 visiting countries:

Italy, Turkey, Romania, United Kingdom, France, Russian Federation, Poland, Czech Republic, Switzerland, Portugal.
