

List of Italian Companies visiting Pakistan from 5-7 December, 2016

S #	Name & Designation	Company name	Description	Sector
1	Bernhard Firmian Sales Manager	Market Service di Firmian	Leading supplier of used/second hand (also reconditioned) Marble & granite working machinery of Italian technology, installation assistance, production run up, after sale and consulting service, all kind of products and services related to stone industries	MACHINERY: Processing to Finishing
2	Fabio Ricci International Market Manager	FederUnacoma	FederUnacoma has been representing the interests of a broad spectrum of mechanical engineering companies within Confindustria (the Italian industry association) since 1945. The federation forms an umbrella organization for manufacturers associations in the field of machinery, equipment and technology for agriculture, gardening and green maintenance and related components. The industrial companies represented by the federation play a key role on the international stage, achieving high-ranking positions in terms of production capacity, breadth of range and effectiveness in meeting the most diverse demands of the agricultural sectors. In 2015 the overall turnover was €7.5 billion whose 65% earned in foreign sales made in almost 180 countries.	ASSOCIATION: Agriculture
3	Massimo Petrosino Export dept. Manager	P.C.A. SRL	Design And Construction Of Machinery And Processing Plant For The Dairy Industry	MACHINERY: Milk and Dairy Processing Machines / Complete Lines
4	Yuri Yurinets, Export Deptt.			
5	Raffaella Carabelli President	ACIMIT	ACIMIT (the Association of Italian Textile Machinery Manufacturers) is a private non-profit making body and its main purpose consists in promoting the Italian textile machinery sector and in supporting its activity, mainly abroad, through the most updated and innovative promotional means, constantly improved during its 70 years of life. In order to promote the Italian textile machinery knowledge throughout the world, ACIMIT gives any kind of information on the activity of the producers and organizes a wide range of promotional activities (such as exhibitions, technical seminars, missions in Italy and abroad, etc.) most of the time in collaboration with Italian Trade Agency.	ASSOCIATION: Textile
6	Gian Luigi Montorsi CEO	BrulliEnergia	Brulli acts as main contractor for the construction of hydropower plants, wind farms and electrical substations (36 to 420 kV, both gas insulated and traditional air insulated) for the high voltage transmission grid. The EPC activity represents the historical core business, with many references both in the production and in the	ENERGY & RENEWABLE ENERGY: Construction of

7	2.Mr. Fabio Bolognesi, Business Development		transmission fields. Brulli also manages according to BOO/BOT schemas substations, hydro power plants and wind farms. Brulli is strengthening its output generation thanks to an important investment plan based on a greenfield and brownfield strategy. The company manages the entire chain starting from scouting activities, goes through plants' turnkey construction and ends with management of the plants and energy sale.	technological plants, Hydroelectric plants, Wind plants
8	Mario Maggiolo, Foreign Office Director	D.R. Ferroviaria Italia SRL	Leading company in Italy for the construction of railway turnouts.	INFRASTRUCTURE: Railways
9	Mario Delrio, Gen Sale Director			
10	PASQUALINA PICCOLO OWNER	Sider Pagani SRL	Our Factory works ferrous and non - ferrous scrap for steel works and foundries. Their first suppliers are the Factory in local area and out of their area. Their customers are steel workers and foundries in Italy and in Pakistan where they sell their scrap from long time.	ENERGY & RENEWABLE ENERGY: Waste management
11	Maria Donata, President,	Prodit Engineering S.P.A.	Design, manufacture, supply, installation, setting up and assistance, with related training of "turnkey" laboratories, including plants, equipment, instrumentation, furniture and other, in the field of University, technical and professional education.	TECHNICAL TRAINING
12	Enrico Scarrone, Sales Manager			
13	Naveed Muhammad, Sales Department			
14	Luca Vicentini, Managing Director	AlcTecnologie Adesive SRL	Patented-process innovation in shoes and leather industry.	FOOTWEAR ADHESIVES
15	Cristian Cavazzuti Middle East Managing Director	PRAMAC	PRAMAC is a worldwide company specialized in the manufacturing and commercialization of a wide range of products in gensets and material handling sectors. Thanks to a strong presence in the market through a solid subsidiary network all over the world we are able to provide our customers with the highest level of assistance and reliability. In the genset area PRAMAC offers a complete range of portable and stationary generators from 1 to 3360 kVA both as standard production,	ENERGY & RENEWABLE ENERGY: Engineering, Technologies for saving and energy

16	ErmanSerin, Area Sales Manager		and tailored solutions. In the MHE sector, the fully integrated production process (from sheet metal to finished product) ensures that the entire range of MHE machines delivers top quality build and performance, from light duty to the most intense applications.	efficiency
17	Gian LuigiCola, Managing Director	FABER INDUSTRIE SPA	Manufacturer of High Pressure Gas Cylinders (CNG, Hydrogen, Technical Gases)	CNG, LPG, LNG, OTHER GASES CYLINDERS
18	Raffaella Carabelli Sales Director	FADIS S.p.A.	Fadis was founded in 1960 with the purpose of manufacturing textile machines such as reminders, soft winders, assembly winders, hank to cone winders, reeling machines, spooling machines and intermingling machines, which are meant to process all types of yarns such as cotton, wool, silk, artificial fibers, synthetic fibers, mixed fibers, intermingled yarns, fancy yarns. Fadis is present in more than 70 countries all over the world. The last generation of precision winding machines clearly shows the importance we give to innovation, research and development of new models, new products, new materials and new technologies. The 100% made in Italy production is synonymous of quality, innovation and safety.	MACHINERY: Weaving, Spinning, Finishing, Printing, Sewing, Molding, Denim related
19	TommasoSabato Head of Business Development	ASTALDI S.p.A.	ASTALDI is an international construction group ranked by revenue among the Top 100 International Contractors. It constructs large and technologically complex infrastructures, acting primarily as EPC Contractor, as well as Concessionaire. With over 90 years' experience in the construction industry, Astaldi operates in 19 countries with a huge expertise and high-qualified human resources. Transport Infrastructures, Water and Energy Production Plants, Civil and Industrial Buildings, Plants Design and Maintenance are its business lines. Listed on the Milan Stock Exchange since 2002, as of December 2015 Astaldi had €9 billion of order backlog and €2.9 billion of consolidated total revenues and it has approx. 11,000 employees.	INFRASTRUCTURE: Airports, Highways & Roads, Railways
20	Federica Anceschi Sales Manager	SIMET srl	SIMET was established in Italy in 1967 and is selling its products all over the world since the early 70s, offering customers a wide selection of machines for the textile industry. SIMET manufactures: <ul style="list-style-type: none"> • Electronic Winders for: Preparation of soft / hard bobbins, Spinning, knitting and hosiery, Picking up from bulking machines • Electronic Winders with feeder, De-knitting Winders, Assembly Winders for 2 + plies, Twisting Machines for fancy yarns, Sewing Thread Winders. The extreme flexibility, the capacity of listening, understanding and satisfying the needs of the users; the high quality, the continuous development of new products and "solutions", made of SIMET	MACHINERY: Weaving, Spinning, Finishing, Printing, Sewing, Molding, Denim related
21	DanieleAzzarone President / CEO	Consulta spa	Full handling and airport services	INFRASTRUCTURE: Airports

22	Marica Nobile Head of Institutional Affairs	TREVI GROUP	The Trevi Group was established in 1957 and it has over 40 offices and branches in more than 80 countries. It is worldwide acknowledged in the field of foundation engineering (special foundations), tunnel excavation, soil consolidations, repair works for dams, recovery of polluted sites, in the design and marketing of relevant special technologies and in the Oil & Gas field both with regard to the production of systems and to the supply of services. TREVI Spa carries out specialized services within the foundation engineering; SOILMEC produces and develops rigs and systems for the foundation engineering; PETREVEN supplies oil drilling services; DRILLMEC produces and develops drilling rigs (oil, gas and water).	INFRASTRUCTURE: Hydro Power, Ports & Marine, Railways
23	Aldino Alebertelli Chairman	ACELL ITALY SRL	Acell is a company that produces and develops new materials and technologies for structural products with exceptional characteristics of weight thermal and seismic resistant, insulation and mechanical resistance. ACELL material is environmental friendly, totally recyclable and the technology is water free. Main characteristic of the technology is the fastness of building realization. The materials are also suitable for retrofit of existing structures.	BUILDING MATERIALS: Roof Coverings, Marble and stone Manufacture, Insulating & Waterproof Materials
24	Giorgio Leonardi, Business Development			
25	Augusto di Pietro Director and Business Development	SIDDCO Italia Srl	SIDDCO Italia is part of the SIDDCO Group which operates in the UAE, Oman & Pakistan and the Italy operations is responsible for the acquisition of machinery and equipment for all our subsidiaries in the various countries.	ENERGY & RENEWABLE ENERGY: Hydroelectric plants
26	Pierantonio Cantoni International business development manager	AICE	AICE is a non-profit, entrepreneurial association that represents Italian companies that deal with foreign trade and services, from small businesses to very large groups: exporters, importers, distributors, agents, trading companies, export houses, buying offices and manufacturers (mainly SMEs). AICE's aim is to create new business opportunities between its members and foreign companies, contributing to the development of international trade. Furthermore AICE works to develop collaborative relationships with international institutions and promotional bodies, as well as with entrepreneurial associations worldwide, with the aim of increasing international trade and fostering a balanced development of economies in all countries.	ASSOCIATION: ITALIAN FOREIGN TRADE ASSOCIATION
27	Andrea Meola Commercial Director	CESI S.p.A.	CESI is a world-leading technical consulting and engineering company with 60 years of experience operating in more than 40 countries around the world. The company's key clients include governmental institutions, regulatory authorities, major utilities, Transmission System Operators, Distribution System Operators, generation companies,	ENERGY & RENEWABLE ENERGY: Engineering

28	Mr. Andre Meolo, CIS, Asia Area Manager		financial institutions. CESI is today an independent, internationally recognized market player, providing consulting and engineering services to the Energy Sector. Major consulting services include: Power Systems and Power Market studies, Master Planning, Design and OE for HV Interconnections, RES Integration, Design and OE of Smart Grids deployments,	
29	Davide Walter Galati Sales	ACSA STEEL FORGING	A.C.S.A. STEEL FORGINGS was founded in 1935. Since the 1960s we are selling closed die hot steel forgings all over the world, with an export share of 70%. We produce forgings from 0,5 kg to 250 kg using our 10 lines of presses from 1600 tons to 6300 tons, our hot extrusions lines from 400 to 1250 tons for hollow parts with lengths up to 600 mm and diameter up to 250 mm and our hammer line with power of 25.000 Kgm. Our products are used in any possible industry sector, such as automotive (transmission and engine parts for cars, commercial vehicles and motorcycles), aeronautical, petrochemical, earth movement, agricultural, machinery, and so forth. Wherever there's a forged part ACSA can be the right supplier.	AUTOMOTIVE: Power Train Components & Systems, Transmission Components
30	Fabio Cesare Rizzoli General Director	Aretè&Coc chi Technology	Aretè&Cocchi Technology is an industrial group devoted to innovation, technology and growth. Established in 2010, it brings managerial competence and financial resources to industrial high-tech companies undergoing periods of transition, development or re-launch. Today A&CT consists of eight businesses that employ 350 people, with manufacturing in Italy, France, the U.S. and China; commercial and technical centers in 7 countries; and sales in 90 countries. Our employees represent 15 nationalities. A&CT manages and invests within the following broad industry sectors in Italy and abroad: packaging systems and automation; airfield systems technology; energy transport; mechatronics; power electronics for Big Science research centers. Ocem Airfield Technology, A&CT group companies, is a global leader in airfield ground lighting and control and monitoring systems worldwide. Ocem designs, manufactures and installs ground lighting and control and monitoring systems form civil and military airports. Ocem Areas of interest: electrical installers, construction companies, distributors, consultants working in the field of airport infrastructure (track-side). CT Pack, A&CT group companies, designs and manufactures automated packaging systems for food products, offering integrate and customizable packaging lines for Bakery and cones and any other ice creams. Areas of interest: local producers of food products (bakery and ice cream).	MACHINERY: Cane Food Preserving / Processing and Packaging, Weaving, Spinning, Finishing, Printing, Sewing, Molding, Denim related
31	PucciMario, International Activities Director	ASSOMAC	The industrial sector represented by Assomac exports more than 80% of the production to 100+ countries	ASSOCIATION: Leather

32	Duilio Locatelli, Sales Agent	SCHNELL SPA	Manufacturer of rebar processing machines, Manufacturer of welding mesh machines and cold rolling line, Manufacturer of innovative system for precast for massive housing, affordable housing.	INFRASTRUCTURE: Building Materials, Industrial Plants & Utility Infrastructure
33	Stefano Degliesposti Asia Export Manager	Rota Guido s.r.l.	For more than 50 years on the market, the company Rota Guido specializes in realization of turnkey integrated livestock breeding operations. It coordinates the whole chain, from the preparation and cultivation of the land for a balanced feeding of the animals, to the realization and rational management of the breeding, to the processing of milk and meat. It also promotes the different by-products for the production of renewable energy and organic fertilizers of high agronomic value. It operates in more than 40 countries in Europe, Africa, Asia and Middle East. Thanks to its national and international experience and its qualified technical staff, Rota Guido is able to offer totally “customized services”, meeting the needs of the Customer.	MACHINERY: Livestock & Dairy
34	Giuseppe Volta, general Director			
35	Renzo Piraccini President	CESENA FIERA - MACFRUT	Macfrut, organized by Cesena Fiera since 34 years, is the leading trade fair in Italy and in Europe for professional operating in the fruit and vegetables industry (10-12 May 2017, Rimini Expo Centre). Macfrut is an increasingly international event offering the chance to do business while showcasing technical expertise and innovation, know-how and the excellent products from the area where the exhibition is located. Macfrut is a vertical supply chain trade fair: there are 11 sectors represented (Seeds, Breeding & Nursery, Crop Technology, Production, Trading & Retail, Processing Machinery, Packaging Materials, Fresh Cut, Dried Fruit, Logistics, and Services) as well as business meetings, fully equipped conference rooms and events.	Fairs & Exhibitions Organizer
36	Alessandro Cagnato GMO	TURBOSOL PRODUZIONE S.P.A.	manufacturer of mortar pumps, plastering machines, screed and self-leveling pumps, grout and injection pumps, concrete pumps, shotcrete pumps, concrete and spraying systems.	Building & Earth Moving Machinery
37	Frediani Cesare Area Sales Manager	New Polaris Lux SRL	new polaris lux is an Italian company leader in the production of abrasives for polishing marble, granite, terrazzo, ceramic and all the natural stones and composite material	BUILDING MATERIALS: Abrasive / Glues

38	GiulioGandioli Managing Director	INOXDADI S.R.L.	Manufacturer and exporter of stainless steel and brass nuts, washers and fasteners Certified ISO 9001:2008. For over 30 years “INOXDADI S.R.L.” deals with a wide range of items turned out in various sizes and grades, including special stainless steels like: AISI 321, 310, 314, 904L, Duplex – W. 1.4462, W. 1.4529, W. 1.4923, Monel 400, Hastelloy, Incoloy besides aluminum, brass, steel. “INOXDADI S.R.L.” is specialist in shear nuts, cage nuts, pressed insert nuts, weld nuts, square nuts, domed cap nuts, wing nuts, castellated nuts, flat washers, spring washers and special fasteners in all grades. We produce fasteners & screws for Automotive, Petrochemical and other advanced fields like Alloys with an high Nickel content and Titanium.	BUILDING MATERIALS & AUTOMOTIVES : Stainless Steel & Brass Screw, Nuts, Fasteners
39	Massimiliano VanniniEmea Area Manager	EUROGUA RCO	Euroguarco, half a century of project management, manufacturing and service company in the field of energy, sealing, piping, valves and insulation products for the oil & gas, petrochemical, process, railways and marine industry. Euroguarco products and services are often officially approved or specified by the clients of the following fields: Oil & gas pipelines, Oil refineries, Gas boosting stations, Petrochemical plants, Chemical plants, Offshore platforms, Electrical power plants, Water treatment and distribution facilities, Steel mills, Construction and infrastructures, Automotive.	Industrial Supplies
40	Manuel Felie, EMEA Area Manager			
41	PatriziaQuercioli DirettoreCommer ciale	R.C.D. S.R.L.	Trucks trailers/light van/agricultural tractors and special vehicles/industrial pneumatic tools	Automotive
42	DanielaLandini, Business Development Manager	SantexRimar Group	SantexRimar Group is one of the leading players in the world market of textile finishing, technical textiles and green technologies for water treatment and drying processes. The Group is a machine manufacturer and a technology partner for knitted, woven and non-woven fabrics and green solutions. SantexRimar Group stands for quality, reliability and excellent automation. Modern technology, knowledge and many years of experience make SantexRimar Group a provider of innovative solutions. We guarantee an excellent level of competence at each stage of the products lifecycle: our machines are made with competence, passion, commitment and a high level of research.	MACHINERY: Weaving, Spinning, Finishing, Printing, Sewing, Molding, Denim related
43	M. AshamHashmi, Sales Manager			

44	Simone Rancan CEO	SMIT S.r.l.	SMIT S.r.l. is worldwide recognized as forerunner in weaving technology. It is a company manufacturer of weaving machines, established in 1938 and renowned for the high standard levels of innovation, productivity and versatility, ensuring competitiveness among a large variety of applications, from garment fabrics to home textiles, terry cloths and technical fabrics. The company always stands close to its customers, in order to maximize performances, test new productions and optimize machine utilization. A wide-spread after sales service network of qualified technicians, together with original spare parts availability and software updates meant to satisfy different requirements, makes SmitS.r.l. an ideal partner for successful investments.	MACHINERY: Weaving, Spinning, Finishing, Printing, Sewing, Molding, Denim related
45	Michele Della Gatta Director	Eco Terra s.r.l.	Eco Terra S.R.L., makes an ideal for integrated services recycling of most of the materials. Eco Terra S.R.L., carries his work since 1996, in Caserta (Italy), equipped on a surface of over 25.000 mq., where have the work place for temporary storage, sorting, volume adjustment and preparation to reuse of recyclable waste from waste collection of dry fraction (paper, wood, textile, plastic, aluminum, iron, tin cans, glass) of secondary and tertiary packaging and of waste from activity industrial, craft, commercial and agricultural. Eco Terra S.R.L., work on all sides, with advanced strategies and banner of exemplary models for reliability and transparency.	ENERGY & RENEWABLE ENERGY: Construction of technological plants, Engineering, Waste management
46	Giulio Sfoglietti Project Manager	Microlab	Microlab, established in 1981, is involved in Design/Consultancy/Manufacturing in Electronics market, in Defence/Aerospace, Telecommunications, ICT, ElectroMedicals and Alternative Energies sectors. We have designed hundreds of Products for our Customers, much of them being now our close partners. Moreover, starting involving our historical partners but successively widening the horizon, we started even a business activity dealing with internationalization. We operate searching for business opportunities in Turkey and bordering countries, Central and South America, Sub-Saharan Africa, Eastern Europa, China and Iran. That due to partnership with local Companies allowing us to supply various services.	Information & Communication Technology (ICT)

47	Cesare Manelli Sales Manager	S.T. SOFFIAGGIO TECNICA S.R.L.	S.T. Soffiaggio Tecnica came to life in 1980, benefiting from the experience matured by the technicians of MOI, the first company manufacturing blow moulding machines in Italy. From the very first day, our aim has been to realise, in close symbiosis with our customers, sophisticated equipment for the blow moulding of plastic materials, designed according to actual production requirements of a market that is constantly evolving and introducing new materials and new moulding technologies. Each of our blow moulding machines is the result of a close cooperation, having the purpose of creating a tailor made solution, technologically advanced and easy to use and to maintain.	AUTOMOTIVE: Power Train Components & Systems
48	Stefano Miccolis General Contractor	ECOLOGICA S.P.A	Hydrocarbons tank cleaning (cow) automatic crude oil washing system ecologica boots the introduction in Italy of the innovative cow system (crude oil washing), which allows to operate on any type of tank, both with floating and fixed roof, providing a recovery rate of the hydrocarbons deposited in the sediments up to 98%, ensuring a consequent reduction in the waste to dispose in landfills, as well as a profit from the increased amount of recovered oil. Ecologica spa offers industrial cleaning services: equipment cleaning, removal of solid material, from equipment and plant components, sandblasting, basin cleaning, management of coal bunkers	ENERGY & RENEWABLE ENERGY: Waste management
49	Silvio Alberti President & CEO	Prima Industries SRL	Prima Industries is a private Italian group founded in 1992 and dedicated to the design and marketing of technological products. The company is certified ISO 9001, ISO 14001 and ISO 18001, the turnover is 9.2 million euro. Our mission is concentrated in two divisions: AUTOMOTIVE: Design and production of components for commercial transport vehicles such as buses, metro, trains, and tractors. Our main customer is Iveco, Volvo, Scania, Mercedes. www.primaautomotive.it FOOD MACHINERY: Design and production of machines for labeling, filling liquid foods as water, jus, drink. See also www.primalabelling.it	AUTOMOTIVE: Power Train Components & Systems, Plastic Parts & Molds, Electrical & Electronic Components
50	Andrea Mengucci Managing Director	Mengucci S.P.A	Manufacturer of wooden (solid wood, MDF veneered) furniture components and luxury decorations for kitchen and furniture manufacturers and furniture contractors/developers for high level residential buildings.	Building Materials: Furniture, Kitchen
51	Luca Toccaceli, Temporary Export Manager			

52	FilippoBussinelli Titolare, Owner	PFS S.r.l.	Founded in 2016, thanks to the experience of its founder, in 3 years of activity Provitech revolutionized the water filtration market in Italy. Reconcile nature conservation with the economicssometimes remains an illusion and also a regret for the entrepreneur; We have found the solution creating a product unique in the world.	MACHINERY: Processing to Finishing
53	IgorPaonni Export Manager	METALSUD LO GATTO S.A.S.	The Company with four business units, thanks to innovation and creativity in the production process and thanks to a team of Calabria designers and architects is now one of the leading companies in the field and it has realized a large number of product innovations, in the respect of the certification standards required by the European specific regulations UNI EN ISO. Since 2011, Metalsud Inc. also controls Tesio Ltd., a company with more than 50 years of experience in the production of security doors of the medium/ high category. The operation allows to control an important stage in the chain of value, sinceTesioS.R.L. has numerous licensees for the production of particular and innovative reinforced doors.	BUILDING MATERIALS: Doors / Windows (Insulated/Double Glass Windows)
54	RiccardoGava Business Developer ME	RIZZANI DE ECCHER	General Contractor with full experience in Infrastructure and Technological Buildings, Hospitals, Luxury Hotels.	INFRASTRUCT URE: Airports, Design-Build Construction, Highways & Roads
55	Zain-Akif Mohammad Area Manager	FARESIN INDUSTRIE S SPA	Faresin Industries spa is a company based in Breganze (Vicenza), which designs, manufactures and sells worldwide feed mixer wagons for the livestock sector and telescopic handlers for agricultural, industrial and construction market.	HORTICULTUR E / AGRICULTURA L / FARM MACHINERY AND EQUIPMENTS, Milk and Dairy Processing Machines / Complete Lines, Processing to Finishing

56	Stefano Iannacone Managing Director Middle East	Mapei SpA	Mapei is today's world leader in the production of adhesives and chemical products for building. The Group now counts 81 subsidiaries with 70 production facilities in operation over 32 countries and 5 continents. Mapei has always placed great emphasis on research. In fact, the Group invests 12% of its company's total work-force and 5% of its turnover in R&D; in particular, 70% of its R&D efforts are directed to develop eco-sustainable and environmentally friendly products which meet LEED requirements. Furthermore, Mapei has developed a sales and technical service network with offices all over the world and offers an efficient Technical Assistance Service that is valued by architects, engineers, contractors and owners.	BUILDING MATERIALS: Roof Coverings, Insulating & Waterproof Materials, Paints & Enamel (Specialized)
57	Maria Antonietta Ventura Amministratore	Francesco Ventura Costruzioni Ferroviarie S.R.L.	The Company operates in railway equipment, offering all related services, starting from the design, in which it's qualified for unlimited amounts, and including the supply of crushed stone, through its own quarry, up to the construction, maintenance and renewal of railway lines.	INFRASTRUCTURE: RAILWAYS
58	Rosario Basile Sole Director	MICBASILE SRL	MicBasile SRL is a company operating in the field the production of cement and concretes. Leading company in the field since 1969 develops his work in related industries the public and private. It produces prefabricated in concrete armed and no, curbs EN 1340: 2004, ducts, pipes cav UNI EN 1917: 2004, new Jersey, tanks for water, "ACI" Imhoff tanks and new wells. Our products are objects in audits and quality controls thanks to the presence of a operative technological within our establishment. The professionalism and the seriousness of the workers, highly qualified and specialized, enable to satisfy even the most demanding customers. We also produce various artifacts size, also on request.	INFRASTRUCTURE: Building Materials
59	Andrea Parrello Chief Consultancy Officer	Parrello Consulting Company	Consulting Company, Management Services, Joint Venture & Partnership, Plans Management, Strategic Plans, Internationalization and International Markets, Business Development Management.	BANK/FINANCIAL INSTITUTION
60	Ranieri Ferrara Administrative Clerck	Ferrara Scensori & Energia	The Ferrara Elevators is built on the solid foundations of a 50 years tradition Italian. We plan, produce custom-made in its factory, sell and install elevators and escalators; Hydraulic or electric machine room less elevators with a weight load from 300 to 3000 kilos. They can be inside a concrete shaft or a metal structure, which is covered with tinted glass, crystal or sheet-metal panels. Perfect craftsmanship, attention to detail, use of quality materials, continuous product innovation are some of the strengths of traditional lift industry FERRARA. All Ferrara product are CE certified and follow rigid safety regulations. Launched new line of lifts by finishing niche, decorated with materials processed, marble and wood especially for the Arab markets.	Building Materials: Elevators, Escalators

61	Claudio Spadacini Chief Executive Officer	ExergySpA	EXERGY design and manufacture Organic Rankine Cycle(ORC) systems with the innovative Radial Outflow Turbine technology for power generation from renewable energy sources and waste heat recovery. EXERGY undertake a complete in house production from the development of the ORC turbine and plant to long term After Sales Service. ORC systems operate with higher efficiency and flexibility than competing technologies and have modular configuration simplifying transportation and installation. EXERGY is part of the Maccaferri Industrial Group, an Italian corporation with an annual turnover of 1.2 billion USD, 58 production plants and about 5,000 employees' worldwide (2015 figures).	ENERGY & RENEWABLE ENERGY: Construction of technological plants, Engineering, Technologies for saving and energy efficiency
62	Marco Mattocchia General Manager Middle East	MulmixSpA	Mulmix was founded more than 40 years ago and is specialized in the production of storage plants, feed mill units and seeds selection. Mulmix's strength is to realize customer oriented installations and turnkey projects; each customer is followed by a project manager during all the phases of the contract (engineering, production, assembly). To be mentioned our new division Maxima, dedicated to the heavy duty industry for the highest standards. The widespread presence in many countries is the element that distinguishes the company; sales offices and organizations create the necessary contact with the customer.	MACHINERY: Agriculture
63	AlbertoRosso Business Development Manager Asia	MaschioGas pardo S. p.a.	MaschioGaspardo is an International Group, leader in the production of Agricultural Implements for tillage, seeding, crop care, green maintenance and haymaking. The Company has 10 productionplants: 7 in Italy and 3 abroad. The Group Employs more than 1,800 people.	MACHINERY: AGRICULTURE
64	Riccardo Cella, Area Manager			
65	Lorenzo Ravenda DirettoreTecnico	MEC ENERGIA S.R.L.	Progettazione, installazione di impianti fotovoltaici, produzione di energia elettrica.	ENERGY & RENEWABLE ENERGY Engineering, Photo-Voltaic /Solar plants, Technologies for saving and energy efficiency

66	Maria Antonietta Ventura General Manager	Francesco Ventura Costruzioni Ferroviarie S.R.L.	FRANCESCO VENTURA COSTRUZIONI FERROVIARIE is the leading of a companies-group operating all over the world in construction and maintenance of railways, narrow-gauge lines, tramway lines, metro-tramway lines and metropolitan lines.	INFRASTRUCTURE: Maintenance & Repair, Railways
67	Cosimo De Tommaso, Advisor			
68	Ambrosio Lorenza Avvocato	VIASAT GROUP S.P.A.	The Viasat Group works in the market of satellite positioning, security and protection in Italy, as well as in the production and assembly of circuit boards and electronic products. The experience it has gained over the years, together with the technological level it has achieved, has enabled the Group to become a leading specialist in the sectors it operates in. The Group also owes its renown to a brand that is recognized and highly thought of on the market. At present the Group works in two fields:•Satellite Positioning, Security and Protection (SPSP)	AUTOMOTIVE: Electrical & Electronic Components
69	Luca Vinti Export Area Manager	ISA S.R.L.	ISA is specialized in the production of refrigerated displays for retail businesses. With its brand TASSELLI targets all kind of supermarkets from the smallest C-store to the biggest hypermarket. TASSELL	Commercial Appliances: Refrigerated Displays
70	Marco Giulietti, CEO			
71	Maria Nasoni Legale Rappresentante	COSTRUZIONI NASONI SRL	The company was founded in 1960 thanks to Marco Nasoni. In 1981 is named Nasoni Costruzioni Ltd. The company was established in the first time working in agriculture and construction application.	INFRASTRUCTURE: Airports, Maintenance & Repair, Ports & Marine
72	Nicola Canella, CEO	SHITEK TECHNOLOGY SRL	Shitek Technology Srl is a hardware and software design, specializing in measurement instrumentation and energy management, facilities management and remote control. The development of its products and services is the main activity of the company, accompanied by a service consulting and third parties design. Everything is done in the study of the research center laboratories (in GrumolodellaAbbadesse), equipped with tools and managed by an ISO9001 quality control system: 2008. The company employs a technical staff hardware and software designers with decades of experience and professional consultants, specialized and internationally recognized. An important part of the investment is dedicated to training and employee satisfaction which forms the basis of our steady growth and our knowledge; for this reason the company is always looking for new motivated and highly interested in sharing our passion for technology.	ICT
